PROVINCIAL BANKING ENQUIRY COMMITTEE, BENGAL.

NOTIFICATION.

No. 263B.E.C.—20th September 1929.—The following questionnaire of the Bengal Banking Enquiry Committee is published for general information.

J. C. CHAUDHURI,

Secy., Provl. Banking Enquiry Committee, Bengal.

QUESTIONNAIRE OF THE BENGAL PROVINCIAL
BANKING ENQUIRY COMMITTEE.

(Note.—The following memorandum is published in order to assist witnesses in the preparation of their evidence. It is not to be regarded as exhaustive, nor is it desired that each witness should necessarily attempt to deal with all the questions raised.)

I.—Agricultural credit and credit facilities for small industries.

1. (i) Describe the present system by which the agriculturist in your district or province obtains finance—

- (a) for expenses during cultivation,
- (b) for capital and permanent improvements, and
- (c) for other special needs, e.g., failure of monsoon, for land revenue, rent, etc.

(ii) What are the rates of interest charged in your district or province in respect of advances, the period for which loans are taken, the nature of the security given and accepted (e.g., standing crops, etc.), and other conditions attaching to the grant of such loans?

What in your estimate are the percentages of secured and unsecured loans to the agriculturists in your part of the country?

(iii) Describe the part played in agricultural finance by Government, the Imperial Bank of India, the Joint Stock Banks, Co-operative Banks, the Indigenous Banks and bankers, professional money-lenders, merchants and dealers, and other organisations giving credit (e.g., companies trading in fertilisers, etc.).

(iv) Can you give an estimate of the total amount of capital required for the various purposes stated above for your district or province?

(v) State defects, if any, in the present system of financing agriculture, and the reasons for the existence of such defects. Do you suggest any remedies?

(vi) Is there co-ordination, among the various credit agencies including Government, and is there scope for improvement in that direction?

2. (i) Describe the present method of marketing principal crops in your district or province *by the raiyat*.

Is he unable to hold up his crop for a better price? If so, for what reasons.

(ii) What in your opinion are the possibilities of forming pools and of co-operative effort generally in marketing produce?

(iii) *Are there any co-operative sale societies in your district? How are they constituted? Are they linked to any central organisation? How are they financed at present? Do they experience any difficulty in obtaining sufficient funds?*

(iv) Describe the credit facilities required for the financing of products during marketing and the facilities actually existing.

(v) In regard to such facilities, is there any special difference as between internal trade and foreign trade?

(vi) What is the part played by the different classes of banks and bankers and merchants and dealers in the financing of—

- (a) *the export trade from the village to the ports of the province through hâts, mokams, etc., and*
- (b) *the import trade from these ports to the distributing centres and ultimately to the consumer?*

(vi-a) *What are the terms on which the financing of trade during the above stages is done? Are any difficulties experienced in connection with the above financing, and have you any suggestions to*

make for removing those difficulties and for improving in any way the existing financial facilities available for the movement of imported and exportable articles?

(vi-b) It has been suggested that the grower of produce in India does not get the full value for his produce on account of the speculative buying and selling activities of firms and companies who deal in the export trade and on account of the control of prices by these and other bodies. What are your views on this suggestion? Please supplement your views by any facts and figures within your knowledge. Have you any observations to make with a view to ensure a better return to the growers of produce in India?

(vii) Have you any reason to think that the lack of banking facilities to persons engaged in the movement of the principal crops of your district (such as paddy and jute) is due to causes other than borrowers' lack of credit, e.g., any position of monopoly which the buyers might enjoy or to the want of a definite standard of quality?

(viii) What are the existing facilities available to the public, including banks and bankers, for internal remittance?

(ix) State any defects in the existing system and any suggestions for improvement?

(x) Describe the part played by negotiable instruments in the internal trade of the province.

(xi) Have you any suggestions to make for the more extensive use of bills (e.g., by reduction of duty on bills)?

(xii) What are the different classes of hundis current, in your part of the country? What are the peculiarities of each?
